

# 2 in 1

## Water Level Meter

### NEW & IMPROVED

- works as total well depth indicator also known as a tag line
- saves time and money at purchase
- sampling time is cut in half

## Reels

- optional sealed bearings
- impact resistant aluminum faceplates
- Mil-spec electronics with high quality abrasion chemically resistant flat tape
- fully pressure rated
- extremely abuse proof
- damage to the tape can never short out the probe

## Interface Meter

### NEW & IMPROVED

- includes a built in draw down and pump alarm function
- works on water AND products like oil or gasoline
- provides convenient way to monitor or control expensive pumps

Expensive submersibles, product recovery pumps and bladder pumps cannot run dry – this instrument provides a convenient way to monitor or control these expensive pumps

**NEW  
Save Big  
Feature**

*This split graphic depicts the new and improved 2-in-1 feature seen in our Oil/Water Interface Meter. Contact us for more details. We even provide a chart comparing our products to our competitors....*

# TESTWELL INSTRUMENTS
